_____

About me

Full stack software engineer with 2+ years of professional experience. Currently living in Zagreb. I am passionate about almost all aspects of developing web applications and other related software. I am a conscientious person who works hard and pays attention to details. I'm also very flexible, quick to pick up new skills and eager to learn from others.

Education

Current: Master of Information technologies

Polytechnic of Zagreb – Master of Information technologies	2014 - 2016

Relevant past work experience

May. 2017 – Present **- Infobip (**https://www.infobip.com**)**

Tags: [#cSharp #aspNet #aspNetCore #sql #html #css #sass #javascript #vueJs #webpack #git #scrum **]**

- ➢ **Software Engineer**
- ➢ Web based applications development
- ➢ Development of complex single page applications

Jun. 2015 – May. 2017 **- TIS Objektni informacijski sustavi (**https://www.tis.hr**)**

Tags: [#cSharp #aspNetCore #aspNetMvc5&6 #webApi2 #rest #microsoftAzure #sql #html #css #sass #javascript #gulp #webpack #git #gitLab #subversion **]**

- ➢ **Software Engineer, technical team leader and solution architect**
- ➢ Web based applications development
- ➢ Database modelling
- ➢ Development of complex IT solutions as a member of a team and team leader

Projects

Diary – [#cSharp #aspNetCore #aspNetMvc6 #sql16 #windowsServer16 #javascript #bootstrap #sass #gulp]

- Activity tracking application that enables users and their managers insight into time spent on projects and features. It also holds information about organization structure, vacation days and usage, personal day usage, report generation(Activity, Billing, Utilization) and more.

DataUnited - [#cSharp #aspNetMvc5 #webApi2 #microsoftAzure #javascript #bootstrap]

- Cloud based social network project with Android frontend connected to an Azure based .net Web API REST backend that is integrated with other open source frameworks. It includes features like messagging, friendship, video calls, daily articles import and approval, menus, services, push notifications etc.

Sharepoint migration tool 07.-13. - [#cSharp #consoleApplication #csom #ssom]

- Console application that exports Sharepoint 2007 data, document libraries and lists and imports them on sharepoint 2013.

TSpot2 - [#cSharp #aspNetMvc4 #entityFramework4.1 #javascript]

- TSpot is a package of web applications developed for HT to be used to create and administrate price tags used in their shops, create reports on devices, their prices, contracts and payment models. This was my introductory project in TIS. I was tasked to support and develop new functionality for the individual applications. This was my first exposure to web development in production environment. Through time I replaced lead developers on this project. I continue to support the project when needed.
  - ○ MPL import: Imports prices from an excel price sheet
  - ○ VPN & Poslovna ponuda - Used by call and sales agents that enables them to get enterprise price lists.
  - ○ Cjenici - Used by call and sales agents that enables them to get price lists for handheld devices.
  - ○ Forme za print – Used by salesmen to define pricing conditions and print out pricing tags

HT Mailing Administration - [#cSharp #aspNetMvc5 #webApi2 #javascript #bootstrap]

- Api and administration web application used for management of sending informational emails to clients

Zagorje Team Website – [#html5 #css3 #sass #jquery]

- www.zagorje-team.com, International competition of young racing pigeons that takes place in Croatia
